IN THE CLAIMS

Please cancel Claims 1-20 and add the following claims:

Sub E2 45. (New) An isolated polypeptide, comprising a unique or repeated peptide motif, which penetrates into a cell.

46. (New) The isolated polypeptide of claim 45, which comprises an amino acid sequence of one or more antibody fragments.

Q4 47. (New) The isolated polypeptide of claim 45, which comprises all or a portion of an antibody hypervariable region.

Sub E8 48. (New) The isolated polypeptide of claim 45, which comprises one or more heavy chain antibody fragments.

44 49. (New) The isolated polypeptide of claim 48, wherein said heavy chain antibody fragment comprises all or a portion of a CDR3 region of said heavy chain antibody.

5 50. (New) The isolated polypeptide of claim 48, wherein said heavy chain antibody fragments comprises all or a portion of a CDR2 region of said heavy chain antibody.

6 51. (New) The isolated polypeptide of claim 48, wherein said fragment of a heavy antibody chain comprises all or a portion of the CDR3 region and all or a portion of the CDR2 region of said heavy chain antibody.
